To Whom It May Concern:

As the assistant office manger of Fuccillo Chevrolet for the past 8 years, and having Advanced Business Systems as our primary copier, fax & printer needs company, I strongly recommend them to possible future businesses. We have several copier & fax machines around the dealership that we have leased from ABS, and because of the excellent maintenance agreements, I can honestly say we have had very few problems. If a problem occurs, ABS is very quick & diligent to fix our machines, and if the problem is extensive where they need to remove the equipment, they very promptly give us a replacement until ours is repaired.

They are also very comparable in price & quality when it comes to supply needs. ABS will deliver toner, ink cartridges, etc, usually within 1 day of calling, free of shipping charges.

I recommend any company that is need to office equipment call Advanced Business Systems for all of your needs.

Sincerely,

A handwritten signature in blue ink that reads "Tami Hobbs".

Tami Hobbs  
Asst Office Manager
