Dear Mr. Christopher,

I would like to take this opportunity to acknowledge your company and employees for great service over the years to the Village of Dexter.

Your company's prompt service and knowledgeable salesmen and technicians have made the company dependable and trustworthy.

Jerry Loya and Brad Gifford, along with all of the technicians that have been in our office to service our equipment, have been friendly, efficient, knowledgeable, and dependable. We have been extremely satisfied with the computer, printer, and copier that the village has purchased through Advanced Business.

The salesmen and technicians, the products, and the service we have experienced from Advanced Business is to be commended.

Thank you. Keep up the great work!

Sincerely,

Richard M. Lawlee, Mayor
